PERSONAL SUMMARY

Results-driven Software and DevOps Engineer with over 5 years of experience designing, implementing, and maintaining scalable cloud and on-premise systems. Skilled in AWS, Kubernetes, Terraform, and CI/CD automation. Recognized for leading DevOps teams to achieve deployment efficiencies and system reliability improvements. Driven by a passion for problem-solving, continuous learning, and delivering high-impact, automated solutions.

SKILLS MATRIX

- CLOUD: AWS (EC2, S3, RDS, Route53, CloudFront, EKS), IAM, VPCs
- INFRASTRUCTURE-AS-CODE: Terraform, Jsonnet
- CONTAINERS & ORCHESTRATION: Docker, Kubernetes, ArgoCD
- MONITORING & ALERTING: Prometheus, Alertmanager, Grafana, Datadog, CloudWatch
- CI/CD & AUTOMATION: Jenkins, Bitbucket Pipelines, GitHub Actions
- PROGRAMMING LANGUAGES: Java, Python, Bash, YAML, JSON
- VERSION CONTROL: Git, Bitbucket
- OS & ENVIRONMENTS: Linux, macOS, Windows

EXPERIENCE

DevOps Team Lead | Turfsport (Dec 2023 – Sep 2025)

- Led a DevOps team to deliver automated CI/CD workflows, reducing deployment time by 40%.
- Defined and implemented release strategies aligned with business goals.
- Enhanced monitoring and reliability across AWS infrastructure with Prometheus and Grafana.

DevOps Engineer | Turfsport (Oct 2022 – Nov 2023)

- Built and maintained Kubernetes clusters via AWS EKS and Terraform.
- Expanded AWS infrastructure (RDS, Route53, CloudFront, IAM) for high-availability systems.

• Implemented comprehensive monitoring and alerting pipelines using Prometheus and CloudWatch.

Intermediate Software Engineer | Entelect (Client: Standard Bank South Africa) (Dec 2020 – Sep 2022)

• Developed and supported backend payment services using Java and Spring Boot.

• Delivered features for Inter-account Transfers and Bulk Payments systems.

• Worked on DevOps integration into payment pipelines to improve deployment consistency.

Junior Java Developer | Psybergate (Pty) Ltd (Jan 2019 – Nov 2020)

• Contributed to enterprise-grade applications through full SDLC using Java EE and Spring.

• Improved build automation processes using Maven and Gradle.

• Supported development of internal tooling and environment automation.

Graduate | Accenture (Feb 2018 – Dec 2018)

• Collaborated on prototype business solutions involving automation technologies.

• Assisted with internal software testing and support initiatives.

Software Developer Intern | Oracle (Dec 2016 – Jan 2017)

• Supported development and QA processes for Oracle-based systems.

• Gained exposure to enterprise application lifecycle and database integration.

EDUCATION

Bachelor of Science (Computer Science) | University of Cape Town (2014 – 2019)

ATTRIBUTES & COMPETENCIES

• Strong leadership and mentoring capabilities
• Excellent problem-solving and analytical skills
• Effective communicator and collaborative team player
• Highly adaptable and quick to learn emerging technologies
• Dedicated to continuous improvement and automation
• Resilient under pressure with strong time management
